TP. HỒ CHÍ MINH

The carbon market is now recognized as one of the effective carbon pricing tools being widely implemented around the world. In the context of Vietnam aiming for sustainable economic development and fulfilling its commitment to achieve net-zero emissions by 2050, the need to cut greenhouse gases and gradually establish a carbon market becomes urgent.

The 2020 Law on Environmental Protection, along with Decree No. 06/2022/ND-CP, has defined the roadmap for piloting the operation of the carbon market in Vietnam, starting from 2025. To create a forum for academic exchange and consultation with experts and scientists on the legal and practical issues arising during the development of the carbon market, **Ho Chi Minh City University of Law, University of Law (Vietnam National University, Hanoi), and Foreign Trade University** are jointly organizing:

INTERNATIONAL CONFERENCE CARBON MARKET: INTERNATIONAL EXPERIENCE AND RECOMMENDATIONS FOR VIETNAM

8:00 AM, May 10, 2025
(02 sessions: Morning, Afternoon)

Format:

In-person combined with online

Language:

Vietnamese & English
